# ONE PIECE STRETCHED CUSTOM GAS TANKS

Our commitment to quality and craftsmanship are evident in our new 14 gauge deep drawn gas tanks with our exclusive grommet mounting system.

- \* Incorporated joggle lap joints throughout.
- \* Joggle lap joints allow the tunnel plate to be sunken below the bottom surface of the tank making grinding of the welds unnecessary.
- \* Tank is mounted to the frame using the supplied weld on brackets. When the brackets have been installed they mount to the gas tank using our new, exclusive design, recessed grommet mounting system which isolates it from vibration and gives a nice flush look.
- \* Grey phosphate etched finish to help prevent corrosion and to give a good surface for primer to adhere.
- \* Comes with weld to frame brackets, grommets and mounting hardware, stainless filler bung, stainless 13/16"(22mm) petcock outlet, stainless breather tube and stainless rear mounted gas crossovers tapped for 1/8"-NPT unions
- \* 14 gauge deep drawn for superior fit and finish

## New Grommets

Each of these custom stretched gas tanks include our new grommet mounting system

Our Grommets

## 2 bung types to choose from

### Screw-In Type

OR

### Pop-Up Type

Gas caps sold separately  
Caps pictured are for reference only  
-Go to pg.105 to view our gas caps -

**All gas tanks must be pressure tested, cleaned with tank cleaner and sealed before painting to protect the final finish and prevent internal rusting during winter storage. Always install the gas tank before painting to check fork, triple tree and handlebar control clearances.**
