SWINGARMS FOR SOFTAIL MODELS 1987-1999 / STOCK WIDTH

- * These assemblies are sold as a replacements for OEM 47537-89A Softail rear section
- * They differ only in the shape of the downtube . . .the swingarm on the left has the same tube configuration as stock, whereas the rear section on the right is all tubular, better matching the frame rails
- * They accept all stock components
